## EXPERIENCE

### **Johnson Controls, Milwaukee** — *UX Designer, Consultant*

SEPT 2016 - PRESENT

- Serve as a principal UX Designer and subject matter expert for the team, offering UX knowledge and guidance.
- Iteratively develop and test an interactive prototype in HTML, CSS, and JavaScript to share with engineers, product owners, and others to define product experience.
- Create sitemaps, workflows, wireframes, concepts, prototypes, sketches, etc. in partnership with other UX Designers.
- Participate in user research, including remote and in-person usability studies and customer site visits, and incorporate quantitative and qualitative findings into UX deliverables.

### **Kohl's Department Stores, Milwaukee** — *Digital Production Developer*

NOV 2015 - SEPT 2016

- Used HTML, CSS, and JavaScript to code new pages for the Kohls.com website while working with business partners.
- Continuously updated repurposed code, ensuring ADA compliance and quicker load times across the website.

### **Breakthrough Fuel, Green Bay** — *Digital Designer*

JAN 2015 - NOV 2015

- Redesigned and re-coded a large-scale SaaS business intelligence application used by Fortune 500 companies using HTML, CSS, JavaScript, and AngularJS.
- Use hand drawn sketches and Adobe CC to mock up new page designs, working closely with the business analyst and product owner to meet business requirements.
